"Meanwhile time hung heavily and throats became dry. Naturally the bar trade took on a boom like a Western mining town when a new vein was struck. Glasses of beer with high collars were all the rage. As a result the excursion party reached the city at 1 or 2 celock in the morning.

"Tired mothers and crying children were deposited in the streets at a time when street cars and "L. trains were running at rare intervals. "Under the new law, all this will be changed, and I trust that such a sharp espionage will be kept on excursion boats by the harbor police that it will not be allowed to become a dead letter."

Timothy "Dry Dollar" Sullivan was not to be found at his place of business in the Bowery yesterday afternoon, but his representatives said that he undoubtedly approves of the law, as he always keeps good hours himself.

The bill is a very short one, but those in a position to know say that it will practically revolutionize the excursion business. It rends as follows:

Corporation Counsel Clark declined to express an opinion on the new law, further than that he thought it an easy matter to evade it, as it only applies to waters ander the jurisdiction of New York City and County.
